Lecture Times Friday at 4 PM EST

Description:

Teaching with technology certification is a 40 hour self-paced course completed over 12 weeks. It includes 12 scheduled lectures every Friday at 4 PM Eastern Standard, assigned readings and tasks. Teaching with technology certification is an introduction to using computers and mobile devices for education. The purpose of this course is to learn online applications, software, and tools for teaching with specific focus on second language acquisition, classroom management, lesson creation, and collaborative projects.

Text:

Readings to be announced.

Goals:

Competency of online tools for teaching with technology.

Creating ways to collaborate, curate, present and implement online resources into a curriculum.

Knowledge of online safety procedures and conduct codes for students and teachers.

Requirements:

Computer or Laptop, Mobile Device

Resources:

www.esltec.com – Virtual Learning Center

Evaluation:

Certification is based on an evaluation of task completion, comprehension of lecture material, and final presentation.

Course Schedule:

Lecture Topic	Task
Survival Tips for Teaching with Technology	Go to Edshelf and do a search for a web tool or app then post your findings
Professional development	Choose 3 hashtags that best represent you and tell us what you discover
